

# FI Consultancy

The FI key on the keyboard is there for help.

FI Consultancy can help you to achieve your technical goals whatever they may be.

## TOP 10 ADVANTAGES OF MICROSOFT OFFICE 365

- 1** Security – Most importantly your data is protected. Antispam and antivirus safeguard your email while updates and patches are applied automatically
- 2** Cloud service – The easy way to move your business to the Cloud and work together efficiently and securely, with the experts in Cloud services helping you every step of the way
- 3** Cost – Save time and money by putting your office in the Cloud, no maintenance or infrastructure costs, a predictable monthly fee
- 4** Support – As with all our Cloud services, you will be fully supported by our technical team who will assist you with set up and any ongoing support you may need
- 5** Business Continuity - An important part of any business today is ensuring that your data remains available at all times. Office 365 allows you to access email and documents, anywhere, anytime
- 6** Reliable - Delivered from multiple data centers, FI Consultancy offer the Microsoft 99.9% scheduled uptime guarantee and our dedicated team of consultants ensures efficient set up and help
- 7** Familiar – We use the most popular of the Microsoft services, Outlook and SharePoint, while Office Web Apps and Professional Plus enable you to use favorites like Word and Excel when on the move. Office Professional Plus can easily be installed on multiple devices.
- 8** Scalability – As your business grows you can add additional accounts, quickly and easily, without the need for buying additional hardware.
- 9** Connect & Communicate – Share your documents with your colleagues, seamlessly communicate through instant messaging and conduct video conferences easily
- 10** Mobility – Work from anywhere with an internet connection. Emails will automatically sync with most mobile devices and you can view and edit documents with Office Web Apps and SharePoint
